

umocnienia wykupu – wg opisu technicznego

|                |                                              |
|----------------|----------------------------------------------|
| 4 mm           | Wielkość rur PE100 do wody pitnej SDR11 PN16 |
| 6 mm           |                                              |
| 8 mm           |                                              |
| 10 mm          |                                              |
| 12 mm          |                                              |
| 16 mm          |                                              |
| 20 mm          |                                              |
| 25 mm          |                                              |
| 32 mm          |                                              |
| 40 mm          |                                              |
| 50 mm          |                                              |
| 63 mm          |                                              |
| 75 mm          |                                              |
| 90 mm          |                                              |
| 110 mm         |                                              |
| 125 mm         |                                              |
| 150 mm         |                                              |
| 175 mm         |                                              |
| 200 mm         |                                              |
| 225 mm         |                                              |
| 250 mm         |                                              |
| 280 mm         |                                              |
| 315 mm         |                                              |
| 355 mm         |                                              |
| 400 mm         |                                              |
| 450 mm         |                                              |
| 500 mm         |                                              |
| 560 mm         |                                              |
| 630 mm         |                                              |
| 710 mm         |                                              |
| 800 mm         |                                              |
| 900 mm         |                                              |
| 1000 mm        |                                              |
| 1125 mm        |                                              |
| 1250 mm        |                                              |
| 1400 mm        |                                              |
| 1600 mm        |                                              |
| 1800 mm        |                                              |
| 2000 mm        |                                              |
| 2250 mm        |                                              |
| 2500 mm        |                                              |
| 2800 mm        |                                              |
| 3150 mm        |                                              |
| 3550 mm        |                                              |
| 4000 mm        |                                              |
| 4500 mm        |                                              |
| 5000 mm        |                                              |
| 5600 mm        |                                              |
| 6300 mm        |                                              |
| 7100 mm        |                                              |
| 8000 mm        |                                              |
| 9000 mm        |                                              |
| 10000 mm       |                                              |
| 11250 mm       |                                              |
| 12500 mm       |                                              |
| 14000 mm       |                                              |
| 16000 mm       |                                              |
| 18000 mm       |                                              |
| 20000 mm       |                                              |
| 22500 mm       |                                              |
| 25000 mm       |                                              |
| 28000 mm       |                                              |
| 31500 mm       |                                              |
| 35500 mm       |                                              |
| 40000 mm       |                                              |
| 45000 mm       |                                              |
| 50000 mm       |                                              |
| 56000 mm       |                                              |
| 63000 mm       |                                              |
| 71000 mm       |                                              |
| 80000 mm       |                                              |
| 90000 mm       |                                              |
| 100000 mm      |                                              |
